Light-Bulb Package Redesign

## WORK EXPERIENCE

**CINNABON** | *Atlanta, GA*  
Graphic Designer | Dec 2013 - Present

I work closely with the marketing, PR, and interior design teams to plan and execute print and digital deliverables for social media, PR events, test initiatives, environmental graphics, store signage, as well as local marketing. I am also responsible for quarterly promotions from start to finish for all travel and entertainment venues across the nation.

During my time here, not only did I bring an updated perspective design-wise, but I helped push the branding into a new direction that is more inline with current marketing strategies.

*Bon Award Recipient* | October 2015

**PRETTY IN MY POCKET** | *Atlanta, GA*  
Designer | Feb 2013 - Dec 2013

I collaborated closely with the marketing team to plan, design, and execute various deliverables in print and digital. I also assisted the software development team with minor mobile app and website tweaks. This included UI designs and well as light coding in HTML, CSS, and JavaScript.

**DESIGN COUP** | *Decatur, GA*  
Intern | Aug 2011 - Dec 2011

I helped clients solve business problems through design, followed corporate branding guidelines, created new guides when needed, and set up print ready files.
